

HIGHLAND RECORDER

TERMS, \$1.00 A YEAR IN ADVANCE

Issued every Friday morning by
H. B. WOOD,
Editor and Proprietor

Entered at the Monterey postoffice as
second-class matter

Monterey, Va., Friday, June 21, 1912

The Republican Convention met in Chicago on Tuesday amid a storm of frenzy and surprises. The Taft forces gained first victory in naming Senator Root as chairman. No one could foresee who will get the nomination or when it will be made, but, most likely, on Friday. Leading impartial observers agree that the situation defies analysis, and all that interested people can do is to await the march of noise events.

DAIRYING IN VIRGINIA

Twenty years ago Virginia was hardly thought of as a dairy state. There were only a few small herds to supply milk to the larger cities. Even ten years ago this industry had not developed very much and there were plenty of men who thought that the State was not adapted for dairying.

That this was a mistaken idea has been proven by the fact that successful dairies are now in operation in all parts of the State. As more modern methods of farming have come into use, as the farmer has been looking for methods of keeping his rich lands rich and make his poor lands more fertile, it has been proven to him that there is no better way to do this than by keeping dairy cows.

Its good results have been shown in the great blue grass sections of the state where farmers have been wondering why their yield of wheat per acre, with fertilizer, has become less than it was without fertilizer. Its good results have been shown in the tobacco sections, where the average farmer for years has been robbing his soil of fertility. The saying "more cows, more manure, more manure, better land; better land, more crops; better crops, more money" is true in Virginia as elsewhere.

The increase in creameries gives some indication of the growth of this work. Five years ago there were only six creameries in the state, there are now twenty nine. An expert from the Agriculture Department at Washington recently remarked that the development of Virginia in this line has been marvelous, far exceeding the development of any other Southern State.

With this development has come a demand for men; hustling, aggressive young men, men who know how to handle a dairy on a farm, or men who can run a creamery, and for ice cream makers.

To help to supply this demand and furnish young men from our State to fill these positions, the Agriculture College at Blacksburg has arranged to put on a special course during the month of October.

If any young man is interested in this work can communicate with Blacksburg or the Dairy or Food Division at Richmond, and get information in regard to this special course.

A. F. Howard,
State Creamery Inspector.

Bill Would Restrict Express Co. Charges.

Washington, June 14.—Division of the country into zones and restriction of prices charged by express companies for handling of small parcels are provided in a bill introduced today by Representative Dougherty, of Missouri, parcels not exceeding seven pounds and not valued at more than \$80 must be handled by the express companies within certain territory at these rates.

For fifty miles six cents for the first pound and two cents for each additional mile under 200 miles, 7c and 2c; under 500 miles 8c and 4c; under 1,000 miles 9c and 5c; under 1,500 miles 10c and 7c; under 2,000 miles 12c and 10c.

HOOKWORM INSPECTOR

Richmond, Va., June 19.—The State Board of Health announces the appointment of Dr. K. E. Miller, a graduate of the John Hopkins University medical school, to become district hookworm inspector, vice Dr. W. A. Plecker, who has been transferred to the Bureau of Vital Statistics.

Dr. Miller is one of the inspectors furnished Virginia in its war on hookworm disease through the bounty of the Rockefeller Sanitary Commission. He will be assigned to duty in the Fifth Congressional District where the work is just being inaugurated.

For sale

A three foot burr, in good condition with hoops, spindle, and fixtures, everything complete. Also a good circular saw mill. Saw 40 inches, and in fine shape, always kept in dry. These plants were constructed by first-class mechanic and have always given excellent service.

Both situated one mile west of McDowell. For terms etc. address
A. L. Armstrong,
McDowell, Va.

Monterey Is A Mountain Town Of Great Beauty.

Monterey, Va., May 20.—As our auto dropped over the crest of Jack Mountain and coasted along the smooth road on the west side, we came into full view of the Monterey valley.

When this view breaks before the tourist there is always an exclamation of admiration and delight. The valley itself is a beautiful vision but the town of Monterey, clad in white and spread like a map over a sloping field of green, is a prettier picture than any artist can paint. On gently rising ground the town stands out in bold relief with every building, fence and church spire distinct against its emerald setting. It reminded us of the pictures we have seen of picturesque Swiss villages.

At closer range the town is as attractive as its first impressions. It is a neat well kept place with pretty homes and well cared for grounds. Business houses and offices too are alike in keeping with neat surroundings. The leading hotel "The Monterey" with its ample double deck veranda and attractive shade bids the weary traveler rest. Mr. H. P. Patterson, the genial host, and his good wife, make the welcome hearty and the stay a pleasure. It was here the Taft touring party was entertained in their recent horseback ride through Highland and it is here that summer guests often while away so pleasantly the torrid months.

From a business standpoint Monterey is doing its full share and drawing trade from every section of the county. With two banks, the First National and the Citizens, it is the only banking town in the county. It also boasts of two Garages, both good ones and both housing some fine machines. An excellent supply of free stone water and an electric light plant are some of the other public conveniences of the place. In this connection it is as well to say that the water supply, the electric plant and one of the Garages represent the effort and energy of Mr. W. F. Kyle, a former resident of Staunton, but now a much interested citizen of Highland. He has but recently sold his new residence and is building another to be quite a pretty one, on the bungalow style but with all modern comforts.

Another new home nearing completion is the residence of Mr. A. L. Jones, commonwealth's attorney for Highland county. This building is on the hill in rear of the old Jones homestead and commands a fine view of the town. Mr. Jones married a Staunton lady and is well known in Augusta, his wife being Miss Katie Bird, who made her home with Mr. and Mrs. George B. Crawford, on Kalorama Street.

The public school building in Monterey is a credit to the town, as is also the court house with its ample grounds and shade trees and the sheriff's residence and jail on the same plot. Other structures of prominence are the Masonic building, and the Methodist and Presbyterian churches. The latter is quite new and has recently called to its pulpit the Rev. N. A. Parker, of Iron Gate, who will soon arrive with his family and enter upon his pastoral duties.

Monterey has many pretty and attractive homes, among them we note the old Stephenson homestead, the Trimble residence, the Matheny, the Beverage, the Hansel, the Jones, the Whitelaw, the Bishop, the Colaw and other places that would do credit to a much larger town.—A. S. M. Staunton Daily Leader.

Hon. Richard Evelyn Bryd, Speaker of the Virginia House of Delegates, has announced that he will retire from politics after the Baltimore convention and devote his time entirely to the practice of law.

REDUCTION SALE

The remainder of my stock of millinery to go at half price from June 7 to 15.

Sallie Gibson
Vanderpool, Va.

Carl Armentrout Now With Beverley Garage

Friends here of Mr. Carl Armentrout, who for the last several sessions has been attending the University of Virginia, will be glad to learn that he has permanently located in the city, having accepted a position with the Beverley garage. Mr. Armentrout has been engaged by the garage as a special agent of Ford cars, as he possesses an expert's knowledge of the Ford.

Mr. Armentrout brought the first car to Highland owner. It was for the late E. H. McClintic.

Public Sale of Real Estate

Will sell at public auction at Warm Spring, Va., in front of court house, 12 o'clock m. Monday, May 20, 1912, to the highest bidder, my home place of 71 acres, situated on the Cowpasture river, two miles south of Williamsville, Bath county, Va.

A good 7 room dwelling, dairy and washhouse adjoining dwelling, with running water in same. All necessary outbuildings. Two orchards, one bearing. Close to school, churches and mill.

Large spring branch running through the place. Star route delivers mail twice a day.

Terms—One half down, balance in one and two years, at 6 per cent interest or 8 per cent off for cash.

Sallie E. Burns,
Box 14 Vollmer, Ida.

At the suggestion of the local registrar we again call attention to the new law relating to vital statistics, which went into effect June 14. As previously stated, unless the people cooperate in carrying out its provisions, there is sure to be confusion and delays, especially in the burying of the dead in rural sections.

The magistrates of the county are the Registrars; they are supposed to have divided the territory up between them, and have been supplied with necessary blanks. In case of birth, the attending physician or midwife is required, under penalty of fine, to make report to the local Registrar within ten days.

Since undertakers are not allowed to bury any one until a permit is obtained from the Registrar or his deputy, it will facilitate matters and often prevent delays if, when a death occurs, the friends at once send for, or go to, the nearest magistrate, answer the required questions and have the permit ready to hand to the undertaker when he comes. This is mentioned because the undertaker often lives in a place remote from scene of death, and often does not arrive until the hour of burial, or a short time before the time. This permit must be obtained from the magistrate nearest the place of death, hence friends of the family can secure it more readily than the undertaker, and to have it ready when he comes will be much better than to delay the burial until the permit is secured.

Bear it in mind it is now one of the laws of the State, and burials are not permitted without this permit. Many persons may fail to see the importance of it, but it is so regarded, and is for the people's good. Talk about it and get ready to do your part in carrying out its provisions.

Commissioner Koerner Issues A New Bulletin.

The State Department of Agriculture is now sending out the June Monthly Bulletin. This issue goes to about 60,000 farmers, who are scattered in every one of the hundred counties of the State. These monthly Bulletins are fresh and practical for the season in which they are issued. The June Bulletin contains a very practical and instructive article on Why We Cultivate The Soil. Many people think the soil is cultivated simply to kill the weeds, but this Bulletin shows there are more important reasons than to kill the weeds. It says the soil is cultivated to loosen it, to let the air in, that the plant roots need air, as well as man. The loose soil also lets in heat to warm up the soil and hasten plant growth, and cultivation loosens the soil to allow the tiny roots to push out in their growth and lastly the cultivation is to kill weeds. The article fully explains the importance of these important results that are obtained through cultivation of crops.

Another interesting article explains fully where the fertilizer materials are gotten that go to make up the fertilizers that the farmers buy, and the part the different fertilizer ingredients take in the growth of plants. Another article discusses the importance of raising more live stock in Virginia.

Commissioner Koerner urges our farmers to save their crimson clover seed. He mentions one farmer in Amelia county who sold \$1100.00 worth of crimson clover seed from his farm last year. This man is a newcomer from Illinois. The Bulletin contains other interesting articles, also a large number of analyses of the different brands of fertilizers and grass seeds sold in the State.

In Bulletin No. 64, issued in April, the saving of the cow pea was urged and also a valuable article furnished on How to Grow more Hay and Grass in Virginia.

In Bulletin No. 65, issued in May, the leading article discussed the value of the silo and furnished statements from many farmers praising its use.

These Bulletins are sent free to all Virginia farmers upon application to Commissioner Koerner at Richmond and should be read by every farmer in the State.

The Thrice-a-Week Edition of the New York World.

The great political campaigns are now at hand, and you want the news accurately and promptly. The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first-class daily.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 150 papers. We offer this unequalled newspaper and the HIGHLAND RECORDER together for one year for \$1.70.

The regular subscription price of the two papers is \$2.00

Dr. Miles' Anti-Pain Pills relieve Rheumatism, Neuralgia and all Pain.

Hulst Glenn Faces

Staunton, Va., June 17.—Hulst Glenn, a member of the local bar, who holds the position of U. S. Commissioner, will be given a hearing tomorrow morning in police court, on a warrant sworn out by Fred Richcreek, charging Mr. Glenn with feloniously keeping from him \$200 collected on a \$500 claim from the C. & O. Ry. The case has attracted wide attention as well on account of the efforts to hush it up as on account of Mr. Glenn's prominence in local political life.

Mr. McAtee, the C. & O. claim agent who settled the claim, has been summoned here to testify and Mr. H. H. Blaise who subsequently represented Mr. Richcreek and is now visiting in South Carolina, has been telegraphed for the key to his safe in which are said to be important papers bearing on the subject.

Mr. Richcreek was hurt at Blinton, W. Va., and gave the claim to Mr. Glenn, who later reported settling for \$300. His wife was suspicious and on investigation found that the railroad had paid \$500.

1911 Dog Tax is due June 30, 1912; after that date 25 cts penalty will be added for collection.

Willis Gibson, Tr.

LIVE STOCK NOTES

Breed for merit as well as pedigree. It is very desirable that the ewe lambs exercise daily.

Rock salt for the cattle is preferable to the ordinary kind.

Wire and cut worms are numerous in old meadows and pastures.

Never loosen or throw out any more silage than you want to feed immediately.

Just now the heavy steer is a much sought after article in the live stock markets.

The colts and unweaned horses should spend most of each pleasant day in the paddock.

The prosperous and most successful farmer is comfortable only when his stock is comfortable.

Those who do not have a supply of silage on hand will find no other to be a satisfactory substitute.

A pleasant, cheerful, cheerful disposition is a valuable quality in a rooster or a general-purpose horse.

Out straw that is free from mold makes an excellent winter forage for mules, young cattle and boarding horses.

Small breeders of limited means should aim to raise animals that combine size, beauty and style with speed, ability, courage and endurance.

The meadows look good for pasture in the fall and early spring, but the man who keeps his cattle off of them always gets better crops of hay.

A horse or a colt will thrive better upon a two-thirds ration of hay and one-third of straw than upon full ration of hay alone.

Northern Virginia Farms

A fine Loudoun county farm for sale containing 203 acres of red chocolate clay land that will grow corn, wheat, oats and grass to perfection. This farm lays well, on good road, 6 miles from R. R. School and church in sight. The building consists of a large frame house with 10 large rooms and cellar under house with bath-room; hot and cold water in each room, large bank barn with silo in it. All out buildings needed and in fine condition, in a fine neighborhood. Price \$10,000, with a small payment cash—balance to suit.

400 acres of excellent clay land good for all kinds of grain and grass on good road 1-2 mile to school and church, 6 miles to R. R. The owner shipped 2 carloads of export cattle off this farm last September and over 100 head of lambs. Raised 2,000 bu. corn, 800 of wheat. The improvements are not fine but comfortable, in a good neighborhood. This is a fine proposition with corn-fed cattle selling at 6 1-2 to 8 1-4 cts., and hogs 7 1-2 cts. Price \$10,000, \$4,000 cash. Balance on easy terms.

T. J. Linton,
Real Estate Agent,
Arcola, Va.

A Fine Farm OF 263 ACRES Price, \$12,000

A fine farm of 263 acres south of Leesburg Loudoun Co., Va., for sale at a bargain containing 263 acres, 245 being cleared and in a fine state of cultivation, well fenced. Plenty of good running water, close to school and church, on good rock road. The improvements consist of a large stone house standing near the center of the farm in a beautiful shaded lawn. The house is plastered inside and out, is in first class condition and has a splendid cellar.

A good bank barn, good stone dairy, stone meat house, all out buildings needed. A very good tenant house but some work needed to be done to it. A small orchard of selected fruit, 100 acres of blue grass sod that has not been broken for 35 years. The owner rented this farm last year; after all expenses were paid he received for his part \$1-000.00. Any one desiring a statement from the owner will be furnished it certified to by him. The owner is a rich man and does not need money. After one-third is paid the purchaser can make his own terms. Home-seekers think of this and come this way.

I have fine clay farms for sale in Loudoun and Fairfax counties from 1 to 10 miles to R. R. station for \$350 to \$800 per acre.

Let me show you these farms.
